Voxware Named to *Food Logistics'* 2020 FL100+ Top Software and Technology Providers

Leading food & beverage media outlet selects Voxware for eighth time

Hamilton, NJ —December 16, 2020 — *Food Logistics*, the only publication exclusively dedicated to covering the movement of product through the global food supply chain, has named Voxware to its **2020 FL100+ Top Software and Technology Providers** list. This is the sixth consecutive year and eighth time that Voxware has been included on the FL100+ list.

The annual **FL100+ Top Software and Technology Providers** honors leading software and technology providers that ensure a safe, efficient and reliable global food and beverage supply chain.

"From fleet management to warehouse management to simply just track and trace along the cold food chain, these software and technology providers have definitely stepped it up to ensure cold food and beverage products continue moving along the line without incident," says Marina Mayer, editor-in-chief of *Food Logistics* and *Supply & Demand Chain Executive*. "This pandemic has thrown the food industry a curveball, but many of these providers fast-tracked the development and deployment of their solutions to ensure food safety, traceability, visibility and quality assurance. So, to these winners and others in the industry working to make a difference, thank you!"

As a leader in innovating the supply chain, Voxware remains committed to helping its customers become more productive and efficient to maximize the efficiency of the distribution center. Voxware's [Voice Management Suite](#) (VMS) improves speed and accuracy across all functions in the distribution center. By supporting multimodal technologies across all workflows, Voxware allows its clients to choose the right solution at the right time, whether that be voice, scanning or vision through its Augmented Reality solution.

"This has certainly been a year like no other, but we are proud that our technology played a crucial role in supporting our food and beverage customers to help meet their customer demands," said Keith Phillips, President and CEO of Voxware. "The need for automation was evident throughout 2020 and we're seeing more companies understand that the more they can automate, the more efficient they will be. We are grateful that *Food Logistics* recognized the role our technology plays in the global food and beverage supply chain and are proud to be included in this year's FL100+ list."

Companies on this year's **2020 FL100+ Top Software and Technology Providers** list will be profiled in the November/December 2020 issue of *Food Logistics*, as well as online at www.foodlogistics.com.

About *Food Logistics*
